PROPOSED AMENDMENT OF CLAIM 1

What is claimed is:

1. An interior window frame assembly for anchoring an interior window covering thereto,
said window frame assembly comprising:

an elongate substrate configured to entirely frame ~~at least a portion of~~ an interior window opening, wherein said elongate core substrate comprises a thickness less than 5/16 inch; and

at least one flange attached to said elongate core substrate, wherein said at least one flange is configured to retain at least a portion of an interior window covering.
